

Inevitably, water and particulate accumulate in a locomotive's fuel tank. This water causes inefficient engine performance and increased wear and tear on the locomotive.

As a solution, PDI created the **Diesel Dehydrator**

Diesel Dehydrator

Removes 99.5% of water from fuel

Extended-life filter removes particulate from fuel

Increased fuel injector lifespan

Increased fuel performance

Prevents algae bloom

Products, Technology and Experience Focused on **You**.

Power Drives, Inc. (PDI) is your comprehensive source for engineered components, assemblies and systems for hydraulic, pneumatic and fluid conveyance applications. Whether your application requirements are for OEM or MRO, Power Drives provides complete end-to-end solutions to meet your toughest challenges.

PDI engineers work with you to assess your requirements, make product and design recommendations and deliver cost-effective solutions for your unique situation. Through our Express Hose Centers, PDI offers on-site fabrication capabilities with a complete inventory of brand name hose, tube, fittings, hardware and components for immediate delivery.

Founded in 1946, Power Drives has the expertise and the capabilities to help keep your business running.
